

RENAULT CLIO RS GORDINI

The 1000th Clio RS Gordini rolled off the assembly line at Renault's Alpine plant in France earlier this year and hit our shores in May. The newcomer takes its place alongside the Twingo RS Gordini, which took South Africa by storm last year. One of the hottest hatches on the road today, Clio RS Gordini is sure to thrill and delight motorsport enthusiasts and the general driving public alike.

PERFORMANCE: The new Gordini benefits from all the latest features that Renault Sport Technologies developed for Clio RS (the engine has remained the same since the first Clio RS, a 2.0-litre straight-4 petrol engine) and reflects Gordini's proud racing heritage. Clio Renault Sport is renowned for being entertaining and fun to drive, and this tweaked model is no different.
